EDUCATION

George Mason University

Fairfax, VA

Master of Science in Computer Science. GPA: 3.83/4

Aug 2024 – May 2026

Relevant Coursework: Container Architecture, Information Security, Artificial Intelligence, Network Security

Savitribai Phule Pune University

Pune, India

Bachelor of Engineering in Computer Engineering. GPA: 3.49/4 (3.8 in last 4 semesters)

May 2020 – Jun 2024

Relevant Coursework: Operating Systems, Database Management, Object Oriented Programming, Software Architecture

SKILLS

Programming Languages: Python, Java, C, C++, SQL, Scala, Go

Frameworks & Libraries: React, Redux, Tailwind CSS, Angular, Spring Boot, PyTorch, Hugging Face, Scikit-learn

Cloud & Systems: Docker, Kubernetes, Jenkins, Terraform, Git, Unix/Linux, AWS

Databases: PostgreSQL, MySQL, MongoDB, Microsoft SQL Server, Redis, DynamoDB

Big Data & Streaming: Spark, Hadoop, Hive, Kafka

Certifications: OCI Foundation Associate 2025, AWS ML Foundations, AWS Cloud Foundations

PROFESSIONAL EXPERIENCE

Software Development Intern

Jan 2023 – Mar 2023

Cognifront Software Pvt. Ltd

- Optimized Python scripts and SQL queries for internal reporting systems, reducing query execution time by 25% in targeted workloads.
- Contributed to CI/CD pipeline improvements by containerizing applications with Docker and adding automated deployment steps in Jenkins.
- Debugged and fixed application issues in Linux environments, improving stability and supporting smoother team releases with Git-based workflows.

PROJECTS

Cloud Infrastructure Automation | Terraform, AWS, GitHub Actions

Aug 2025 - Aug 2025

- Designed and implemented a CI/CD pipeline to provision AWS infrastructure (EC2, S3, ECR) using Terraform, enabling reproducible and scalable environments.
- Automated build and deployment workflows with GitHub Actions, deploying a Dockerized Node.js app on EC2 with zero manual intervention.
- Delivered a working end-to-end cloud-native system, demonstrating Infrastructure-as-Code best practices for rapid iteration and reliable releases.

Distributed Product Recommendation Engine | Python, PyTorch, Hadoop, PySpark

Jun 2025 - Jul 2025

- Trained and fine-tuned large language models on product datasets, improving recommendation accuracy by 25%.
- Engineered distributed pipelines with PySpark for ingestion and feature engineering, cutting training time by 30%.
- Deployed recommendation service on Hadoop clusters, enabling distributed training and robust handling of large datasets.

Multilingual AI Fact-Checking Platform | Python, newspaper3k, MarianMT, Docker

Jun 2025 - Jul 2025

- Developed microservices for multilingual fact-checking with Hugging Face MarianMT, reaching **85%** verification accuracy across English, Spanish, and Hindi datasets.
- Automated data ingestion with newspaper3k, scraping and preprocessing 5K+ articles daily for evaluation.
- Integrated a real-time analytics dashboard to visualize claim verification results, enabling faster decision-making for end users and improving transparency.

- Uni-Survey – Campus Feedback Application** | *Java, Spring Boot, Angular, Jenkins*

Jan 2025 - Mar 2025
- Designed and deployed a secure full-stack feedback application with Angular, Spring Boot, and RDS, supporting 500+ students.
 - Integrated encrypted REST APIs and role-based access control (RBAC) to protect data privacy while simplifying onboarding and boosting feedback participation.
 - Automated CI/CD pipeline with GitHub Actions and Jenkins, deploying on Kubernetes via Rancher to ensure high availability (3+ pods) and secure delivery.

- Loopify – Modern Music Web App** | *React, Redux, Tailwind CSS, RapidAPI*

Dec 2024 - Jan 2025
- Built a responsive music streaming platform with search, top charts, and lyrics sync, driving a 40% increase in average session length.
 - Integrated Redux for state management and RapidAPI for real-time music data, ensuring smooth playback across 500+ test users.
 - Designed intuitive discovery workflows and optimized rendering, improving load performance by 35%.

LEADERSHIP & INVOLVEMENT

- Mason Recreation**

May 2025 - Present
- Outdoor Supervisor*
- Supervised daily operations of outdoor fields, courts, and open play areas, ensuring a safe and inclusive environment for 500+ patrons weekly.
 - Responded to on-site accidents and emergencies, administering CPR/First Aid and completing detailed incident reports.
 - Coordinated facility usage schedules for rental groups, club sports, and intramural teams, maximizing space utilization and minimizing conflicts.

- Vedhas NGO**

May 2022 – Aug 2024
- Community Educator*
- Taught STEM concepts to 850+ underserved students through interactive lessons, coding sessions, and hands-on workshops.
 - Built scalable mentorship frameworks for 20+ volunteers, expanding the NGO’s impact and continuity of learning.
 - Designed accessible teaching resources that simplified technical concepts for students with diverse backgrounds.

- Rotaract Club of Nashik Nine Hills**

Jun 2023 – Apr 2024
- Member*
- Designed digital campaigns using Canva/PowerPoint, boosting engagement across the club’s social media platforms by 35%.
 - Organized donation drives, stray-dog safety initiatives, and cleanliness campaigns, directly benefiting local communities.
 - Planned and executed events for 200+ participants while mentoring new volunteers to strengthen outreach.
